

CAEPIPE 3D+TM

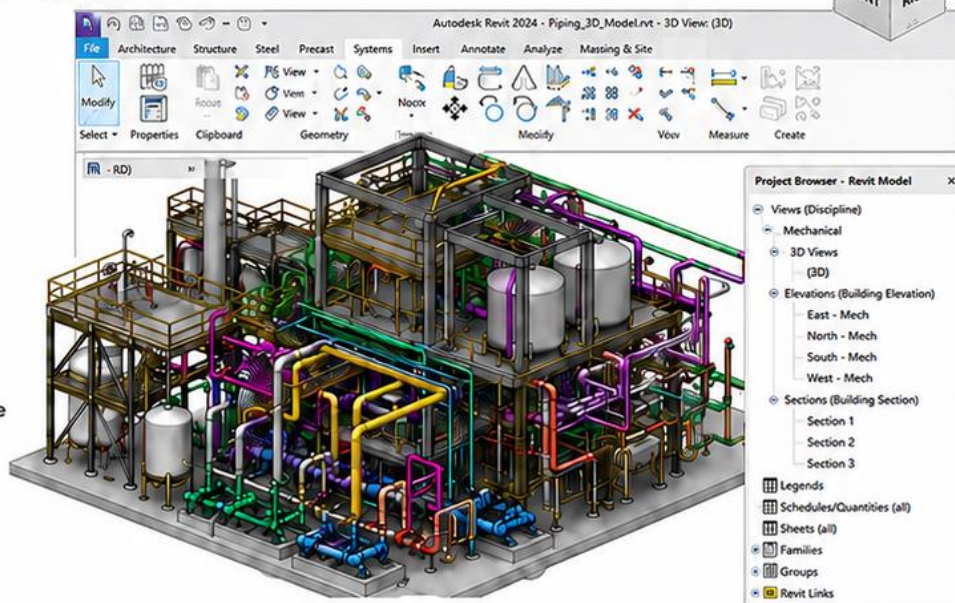

Cloud Compatible

The Most Disruptive
Pipe Stress Software!

Do you want ...

- ✓ To create stress models directly from **3D Plant Design / BIM systems?**
- ✓ 3D Piping Designers to perform **First-level Stress Compliance Checks?**
- ✓ Piping Designers to check for Interference under **"Hot" Operating Condition?**
- ✓ Pipe Stress Engineers to have an **Instantaneous View** of their 3D Plant / BIM model, while performing **Detailed Analyses?**
- ✓ Piping Designers to transfer layout changes into 3D Plant / BIM model and **update supports** as per finalized stress models?

If "Yes", **CAEPIPE 3D+**
is the product for you!

**Seamless
Integration**

with 3D Plant /
BIM Systems

**Smarter
Design**

Early checks,
better decisions.

**Faster
& Smarter**

Save time,
Increase productivity.

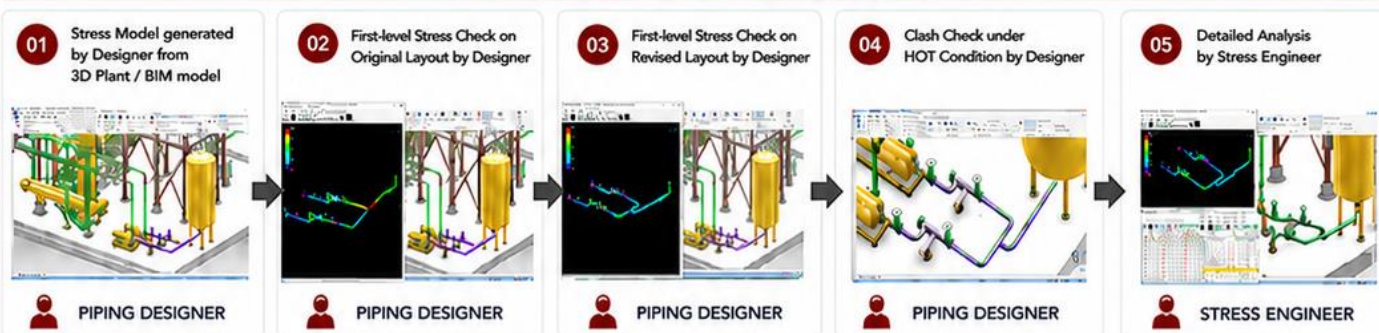

**Safer
Plants**

Ensure compliance.
Reduce risks.

From 3D Model to Safe, Reliable
Piping System – **Faster & Smarter**

WORKFLOW – COLLABORATION MADE EASY

KEY HIGHLIGHTS

- ✓ Bi-directional data flow between 3D model and analysis
- ✓ ASME B31.x, EN 13480-3 and many more...
- ✓ Supports Static, Dynamic, Seismic & Code Compliance
- ✓ User-friendly for Designers, Powerful for Engineers
- ✓ Reduce Project Time & Improve Plant Safety
- ✓ Improved Accuracy, Reduced Rework
- ✓ Better collaboration between designers and stress engineers for optimized results.

WHY CAEPIPE 3D+?

CAEPIPE 3D+ empowers piping design and stress teams to work together in a connected environment – enabling early validation, faster iteration and confident decision-making across the project lifecycle.

INTEGRATED
Connect design
& analysis

EFFICIENT
Automate checks,
save time

ACCURATE
Reliable results,
better quality

COLLABORATIVE
One platform,
one team
